

兔抗 CDK8 多克隆抗体

中文名称: 兔抗 CDK8 多克隆抗体

英文名称: Anti-CDK8 rabbit polyclonal antibody

别 名: K35

抗 原: CDK8

储 存: 冷冻 (-20℃)

宿 主: Rabbit

反应种属: Human, Mouse

相关类别: 一抗

标 记 物: Unconjugate

克隆类型: rabbit polyclonal

技术规格

Background:

The protein encoded by this gene is a member of the cyclin-dependent protein kinase (CDK) family. CDK family members are highly similar to the gene products of *Saccharomyces cerevisiae cdc28*, and *Schizosaccharomyces pombe cdc2*, and are known to be important regulators of cell cycle progression. This kinase and its regulatory subunit cyclin C are components of the RNA polymerase II holoenzyme complex, which phosphorylates the carboxy-terminal domain (CTD) of the largest subunit of RNA polymerase II. This kinase has also been shown to regulate transcription by targeting the CDK7/cyclin H subunits of the general transcription initiation factor IIH (TFIIH), thus providing a link between the 'Me

	diator-like' protein complexes and the basal transcripti on machinery.
Applications:	ELISA, IHC
Name of antibody:	CDK8
Immunogen:	Synthetic peptide of human CDK8
Full name:	cyclin-dependent kinase 8
Synonyms :	K35
SwissProt:	P49336
ELISA Recommended dilution:	2000-5000
IHC positive control:	Human thyroid cancer
IHC Recommend dilution:	25-100
