

兔抗 MAL 多克隆抗体

中文名称:	兔抗 MAL 多克隆抗体
英文名称:	Anti-MAL rabbit polyclonal antibody
相关类别:	一抗
储 存:	冷冻 (-20℃)
宿 主:	Rabbit
抗 原:	MAL
反应种属:	Human, Mouse, Rat
标 记 物:	Unconjugate
克隆类型:	rabbit polyclonal

技术规格

Background:	The protein encoded by this gene is a highly hydrophobic integral membrane protein belonging to the MAL family of proteolipids. The protein has been localized to the endoplasmic reticulum of T-cells and is a candidate linker protein in T-cell signal transduction. In addition, this proteolipid is localized in compact myelin of cells in the nervous system and has been implicated in myelin biogenesis and/or function. The protein plays a role in the formation, stabilization and maintenance of glycosphingolipid-enriched membrane microdomains. Down-regulation of this gene has been associated with a variety of human epithelial malignancies. Alternative splicing produces four transcript variants which vary from each other by the presence or absence of alternatively spliced exons 2 and 3.
Applications:	ELISA, IHC
Name of antibody:	MAL
Immunogen:	Synthetic peptide of human MAL

Full name:	mal, T-cell differentiation protein
SwissProt:	P21145
ELISA Recommended dilution:	2000-5000
IHC positive control:	Human liver cancer and Human brain
IHC Recommend dilution:	50-200
